

Our Achievements

SECTION ANALYSIS

Purpose: A trust-and-proof section that backs up the intro promises with numbers so skeptical visitors get quick validation.

Target Audience: Business owners and decision-makers doing a fast credibility scan.

User Intent: Has this company actually done real work, or is this their first client.

Business Goal: Build confidence so the visitor keeps scrolling toward the CTA instead of bouncing.

SEO Opportunity: Light, but reinforces topical relevance around software delivery and support commitment.

Recommended CTA: None needed, this section supports the CTA elsewhere on the page.

Design Psychology: Icon-topped cards with bold numbers give scannable proof over prose; dark navy badges keep numbers feeling premium.

CONTENT (ENGLISH)

Small Label: Track Record

Main Heading: Our Achievements

Subtitle: Years of hands-on delivery across web, software, and digital marketing projects for clients of every size.

Stat Card 1: 50+ Projects Delivered - Across web, software, and eCommerce platforms

Stat Card 2: 35+ Happy Clients - Startups to established enterprises

Stat Card 3: 15+ Technologies Used - Modern stacks chosen for the right fit, not trends

Stat Card 4: 24/7 Technical Support - Real people, ready when something needs attention

EXPLANATION (HINGLISH)

Small Label - "Track Record" isliye choose kiya kyunki yeh short aur confident hai, bina bragging kiye credibility establish karta hai.

Main Heading - "Our Achievements" already design mein perfect fit hai, isliye same rakha.

Subtitle - Existing line ko halka refine kiya taaki "hands-on delivery" phrase stand out kare, yeh generic claim se better hai kyunki actual involvement dikhata hai.

Stat Cards - Numbers already strong hain (50+, 35+, 15+, 24/7), unhe touch nahi kiya. Labels short aur clear rakhe kyunki stat cards mein user 1-2 second se zyada nahi rukta.

Micro-descriptions - Optional add kiye taaki numbers ko context mile, specificity trust badhati hai aur generic AI-feel se bachati hai.
